

THE DIRECTOR OF
CENTRAL INTELLIGENCE

National Intelligence Council

31 March 1982

NOTE FOR:

STAT

SUBJECT : Meeting with Senator Leahy

Further to our conversation of several weeks ago, I had breakfast with Senator Leahy this morning at his invitation. He asked about current relations with China, and I provided him with a rundown of recent field reporting and analytical work. Senator Leahy may make another trip to China with the Agriculture Committee this fall. He appeared genuinely optimistic about the health of CIA, reserving only on the issue of covert action. Since we have little going on in East Asia, we did not discuss any specific programs.

Our wives being acquainted (from China), we agreed to a family dinner in May or June.

Dave
